

taking the next step

STUDIO ANNOUNCEMENT

In the journey of every successful business, there comes a time when the next step up needs to be taken to ensure its growth and prosperity. Unique8 and its parent company Unique Metals & Lasers feel that time is now.

And what an opportune time! With the imminent explosion of usable 3D immersive and virtual reality applications, Unique8 is ready to serve its clients and take the lead in providing 3D solutions that our clients will utilise to deliver valuable customer outcomes.

From Monday 19th April 2016, Unique8 will restructure, rebrand and relaunch as **MIMIC Studio**.

This new era also brings a new move to West Perth, as we recognise the importance of being more accessible to our clients. For you, it will still be business as usual.

Mimic will still continue to provide high-quality 3D renders, animations and video productions. Yet more excitingly we will also be collaborating with you and other creatives to provide highly targeted, marketed and usable 3D VR and immersive solutions. No other studio in Perth will be offering the quality or level of expertise that Mimic will.

The team will also remain the same, so if you have any questions don't hesitate to drop us a line or come in and see the new studio!

To say we are excited would be an understatement however, we are also very grateful for the years of guidance and support provided by Unique Metals & Lasers. Managing Director Paul Figliomeni has been a great business mentor and we thank him and his family for all the opportunities they have provided for us to grow.
