

CHEMICAL SLIP

CHEMICAL SLIP

Chemical Slip is the moniker of Marcus Zschokke a classically trained musician who resides in Perth, Western Australia. After a career change from the hospitality industry, The Chemical Slip project was born.

Gigging house parties with his style of juicy dance-driven drum and bass quickly ramping up to supporting slots at events and has been a consistent presence in the drum and bass scene. He cites his passion as being stoked by the long history and culture of D'n'B within WA and the strong community of like-minded people coming together to escape and not take life too seriously.

Moreover, his sets are joyous adventures in dancefloor DnB, jump up, rollers, and euphoric sounds. Having finished his studies as in audio engineering, Chemical Slip has also mentored new producers in the scene by creating the Native Perth initiative. This is a program which provides support and spotlights independent artists through live streams and social media.

Aside from appearing at venues in Perth like The Court and The Sewing Room as well as local music festivals, he's been support for Mr Traumatik, Document One, Maduk, Tsuki and many more. In 2019 Chemical Slip also won Western Australian Wildcard category at the Your Shot competition.

During the last two years of COVID restrictions, Chemical Slip took a step back from DJing to focus his energy on music production honing in on his skills and developing his distinct sound.

"My workflow when starting any idea is to build my tracks around an emotion and layer and layer sounds to enhance the initial idea."

Chemical Slip's tracks radiate with personality but this also belies the technical aspects and methodology he applies to music production. Today with life returning to some normalcy Chemical Slip has been working hard and is ready to release a stack of tracks in the second half of 2022, which will later culminate into an EP. And what to expect from the industrious producer? In his words, "Lucious drum and bass".
